Aim :- To create a simple cloud software application for building and rent and provide it as a service using any cloud service provider to demonstrate SaaS.

Procedure

- 1) Go to zoho.com
- 2) Login to the zoho.com
- 3) Select anyone application
- 4) Enter the application name
- 5) Create a new application
- 6) Select one form
- 7) Create property building and rent form by using existing templates
- 8) property building and rent software has been created.

Results

Hence property building and rent software created successfully using cloud service provider.
